Integrated Fiberglass Lab Counter and Sink

RIGHT AND LEFT SINK VERSIONS

Our twenty-five years of fiberglass expertise allows us to create some of the most durable, fire retardant **laboratory-grade counters and integral sinks.**

A wide range of colors are available to coordinate with your color scheme or to blend in with your other laboratory fixtures.

Both right and left sink version are six feet

long and ready to install on your cabinets or our modular cabinet units.

Clean-up is easy due to our long sloped counters, integral sink, raised edges and cove corners that keep spills inside.

- 72" long
- 25" front to back
- Wide color range
- Class 1 fire rating
- Right and left options
